## PROFESSIONAL OPPORTUNITIES

### The National Rural Recruitment and Retention Network

The National Rural Recruitment and Retention Network (3RNet) members are not-for-profit organizations helping health professionals find practice opportunities in rural and underserved areas throughout the country. Please see the following link for more details: <http://www.3rnet.org/>

### Internship with the CDC Foundation

Since 1995, the CDC Foundation has made a direct and dramatic impact on public health by helping the Centers for Disease Control and Prevention (CDC) do more, faster, to make the world healthier and safer. As an independent, nonprofit organization established by Congress, we offer individuals and organizations a powerful way to participate in CDC's mission.

We unite a wide range of private sector partners with CDC scientists to achieve common goals. Sometimes, these partnerships begin with CDC scientists who have ideas, but lack the resources to test and implement them. At other times, individuals or organizations that share a passion for CDC's mission recognize that they can better accomplish their own public health goals by working through the CDC Foundation to engage and empower CDC scientists.

To learn more, please visit our web site at [www.cdcfoundation.org](http://www.cdcfoundation.org).

Or contact: Kevin T. Brady, MPH, Associate Vice President for Programs, CDC Foundation, 55 Park Place, Suite 400, Atlanta, GA 30303

### Selecting a MPH Specialty Track and Program of Study

By the end of the second semester or after completing required courses, whichever comes first, MPH students must select a specialty track. Selection should be done in consultation with the student's faculty advisor. At the time of selection, a Program of Study (POS) form should be filed by the student. The POS may be updated from time to time as course work progresses. Please see the IPH Graduate Student Handbook for further details and an example of the Program of Study worksheet: <http://publichealth.gsu.edu/pdf/IPHhandbookspring08.pdf>

### SAS Software

IS&T has received authorization from SAS Inc. to distribute the SAS analytics software to Georgia State students. SAS version 9.1.3 is available for \$30 per copy, which just covers the cost of the CD and duplication. For more information, contact the Help Center at (404) 413-HELP(4357).

### Computer Lab

The College of Health & Human Sciences Computer Lab in the Urban Life Building, Room 955 is available for use by all CHHS students (including MPH students) during normal operating hours. You merely need to have your student ID with you.

Normal operating hours are Mon. - Thurs. 9:00 am - 7:30 pm and Fri. 9:00 am - 5:00 pm. These hours are subject to change periodically, as the lab is sometimes closed for departmental testing or maintenance.

### Health Law Courses

If you're a second year student interested in registering for health law courses at the GSU College of Law, please contact Prof. Russ Toal at [rtoal@gsu.edu](mailto:rtoal@gsu.edu).

### Library Resources for PH Students
