Georgia State University is an Affirmative Action/Equal Opportunity Institution. Women, minorities and persons with disabilities are encouraged to apply.

Epidemiology & Biostatistics – Open Rank Professor/Lecturer
(Log# 17-022 A&B)
School of Public Health
Georgia State University
Atlanta, GA

Georgia State University is a leading urban research institution located in Atlanta, Georgia. The School of Public Health is a CEPH-accredited program with more than 280 graduate students and over 35 core faculty and academic professionals. Successful applicants will join a unique, multi-disciplinary public health program with emphasis in urban health research, applied public health, health policy, and community applications.

The School of Public Health is currently seeking outstanding applicants for the following position(s):

Open Rank Professor/Lecturer, Epidemiology & Biostatistics (Log# 17-022 A&B)

The School of Public Health is seeking tenure-track and non-tenure faculty member to join the core faculty in the area of Epidemiology & Biostatistics. The selected tenure track candidate will be expected to teach epidemiology and biostatistics courses, mentor students, develop research agenda, collaborate with interdisciplinary colleagues to establish appropriate research designs and methods, and work with other programs in the university. The selected non-tenure track candidate will be expected to teach Public Health courses that address departmental priorities in areas of specialization and provide academic and research advisement to Public Health students.

The ideal candidate will have an earned doctorate one of a variety of disciplines including Public Health, Biostatistics, Epidemiology or a related field have advanced analytic skills, including designing clinical trials and observational studies, manipulating large and complex databases, and knowledge of advanced statistical techniques or a focus on epidemiologic methods, infectious diseases, chronic disease, prevention science and other fields that have general bearing on Public Health. Candidates who demonstrate a strong record of independent or collaborative research with extramural funding support are preferred but candidates who demonstrate the potential to become funded independent investigators will be considered. Prior work experience in a university setting is highly desirable. Good oral and written communication skills are essential.

Application Process: Electronic submissions are preferred: Submit a letter of interest; resume or curriculum vitae; and names/contact information for three references to:

Epidemiology & Biostatistics Search Committee Chair (Log# 17-022 A&B)
Phone: 404-413-1130
Email: publichealthjobs@gsu.edu

Please include Epidemiology & Biostatistics Search Committee (Log# 17-022 A&B) in the subject line.

Other documentation may be requested of applicants considered for interviews. Employment will be conditional upon a background investigation/verification.
